To hire any scale at all from EuroScales, call us on 01625 619554 and remember when you hire a scale from us you are not just hiring a scale - you are also hiring all of our service engineers and expertise too.

If the scale that you hire from us breaks down in any way we will get it repaired for you just as if you had bought it from us.

Whether you need one pallet truck scale for a weekend or 50 parts counting scales to cope with seasonal demand on your production line, EuroScales has a wide range of equipment available to fulfil your short term and long term hire needs.

All products are of the latest specification and include counting machines, bench and platform scales. We can advise on the best machine for your needs, deliver it the same day and provide the support of a local service engineer for installation, calibration and training.

All EuroScales Hire scales can be supplied with calibration certification that complies with ISO9000 requirements.
